

Black Lives Matter

The pain and the outrage that many in our community feel after the violent deaths of George Floyd, Breonna Taylor, Ahmaud Arbery, and countless other black Americans cannot be ignored. These deaths are a stark and difficult reminder that many within our community, including many of kids we work with, continue to be endangered simply because of the color of their skin.

Trips For Kids Marin stands in solidarity with and extends full support to the Black Lives Matter movement. Racism, inequity, and intolerance have no place within our society and no place at Trips for Kids Marin.

For over 30 years, Trips for Kids Marin has provided transformative cycling experiences for underserved Bay Area youth. We see the bicycle as a tool for social equity and social emotional learning. A large majority of the kids we serve are black and brown. However, like many predominantly white-led non-profit organizations, we recognize the lack of representation in our staff and board compared to the communities we serve. We recognize there is room for improvement.

As we move forward we are committed to listen to, include, seek out, and amplify the black and brown voices within our community, especially those within the outdoor and cycling spaces.

We are committed to creating space for people of color to lead within our organization.

We will acknowledge where privilege exists within ourselves and our community.

We will work toward open dialogue about diversity and equity.

We recognize there is a lot of work to do. We know we will be imperfect in the process, but we are committed and know that together we can make powerful changes.

Program Manager, and many of the students moved to virtual lessons and at-home hands-on homework to complete the program. Every student who continued with virtual classes finished the program and earned a bicycle! We are ecstatic to still be able to provide meaningful programming for youth during this time! Congrats Grads!
